SUMMARY

Recent Information Technology graduate with hands-on experience across full-stack web development (**TypeScript, React, Next.js, PostgreSQL**) and cross-platform mobile development (**Flutter**). Built and defended a capstone mobile app combining on-device machine learning and OCR, and completed a QA internship testing a production academic system end-to-end. Comfortable working with AI-assisted coding tools (**Claude Code, GitHub Copilot**) while reviewing and validating all generated code. Seeking an **entry-level Software Developer role — web, full-stack, or mobile**.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), Dart, Python, Java
- **Web & Mobile:** React, Next.js, Flutter, Tailwind CSS, HTML5/CSS3, Responsive Design
- **Backend & Data:** Node.js, Express.js, PostgreSQL, MySQL, Prisma ORM, Firebase, REST APIs
- **Tools & Practices:** Git/GitHub, Trello, Vercel, Android Studio, Vitest, CI/CD, Manual & Functional Testing
- **AI & ML:** TensorFlow Lite, OCR integration, AI-assisted development (Claude Code, Copilot)

KEY PROJECTS

- bastaFDA — Medicine Verification Mobile App (Capstone)** **2025 – 2026**
Holy Cross of Davao College *Flutter, Dart, TensorFlow Lite, OCR, Firebase*
- Built a **Flutter** app that verifies medicine authenticity by combining **OCR** text extraction with a **TensorFlow Lite** image-classification model against official FDA registration data.
 - Implemented the full product flow — scanning, verification, history, and reporting — with **Firebase** authentication and real-time data; successfully defended before a faculty panel.
- Kanbo — Full-Stack Job-Search Tracker** **2026**
kanbo-two.vercel.app *Next.js, TypeScript, Prisma, PostgreSQL, Auth.js*
- Built a drag-and-drop Kanban board (**@dnd-kit**) with fractional-position reordering and **Auth.js v5** authentication enforcing per-user data access on every server action.
 - Added a conversion-funnel stats page driven by real stage-transition history, with CSV export and stale-application flagging.
- PitchIQ — Football Match Prediction Dashboard** **2026 – Present**
pitch-iq-theta.vercel.app *Express.js, Node.js, React, TypeScript, Vite, Tailwind CSS*
- Built a full-stack dashboard integrating a third-party sports API across 11 competitions, with live match tracking and an LLM-powered match-insight feature backed by a deterministic fallback; verified endpoints with custom scripts.

WORK EXPERIENCE

- HOLY CROSS OF DAVAO COLLEGE** **Davao City, Philippines**
QA Intern, Developer Track — Academic Intervention System (Laravel) *02/2026 – 05/2026*
- Designed and executed test cases across the grade-checking, analytics, and reporting features of a system used by the Office of the VP for Academic Affairs.
 - Verified data accuracy of grade computations and pass/fail statistics against source academic records; traced defects into the Laravel codebase and proposed fixes to the development team.

EDUCATION

- HOLY CROSS OF DAVAO COLLEGE** **Davao City, Philippines**
Bachelor of Science in Information Technology, 2026

Capstone: bastaFDA — Mobile Verification of FDA-Approved Products
