

KENT LOZANO

JUNIOR MOBILE DEVELOPER

Davao City, Philippines | +63 966 637 0287 | kentlozano45@gmail.com | kent-lozano.vercel.app | github.com/FriedNood1es | linkedin.com/in/kntlzn

SUMMARY

Entry-level mobile developer specializing in cross-platform application development with **Flutter** and **Dart**, including on-device AI. Built and defended **bastaFDA**, a medicine-verification application integrating **TensorFlow Lite** image classification, OCR, and official FDA registration data. BS in Information Technology graduate with additional full-stack web experience (**Next.js**, **TypeScript**, **Prisma**, **PostgreSQL**) and a manual QA internship on a Laravel-based academic analytics system. Seeking a **Junior Mobile Developer**, **Junior Flutter Developer**, **Mobile Developer**, or **Entry-level Software Developer** role.

TECHNICAL SKILLS

- **Mobile:** Flutter, Dart, Native Android, Java, Mobile Application Development, Responsive Design
- **AI & Machine Learning:** TensorFlow Lite, OCR integration, on-device model deployment
- **Backend & Cloud:** Firebase (Auth, Firestore), RESTful APIs
- **Web:** TypeScript, JavaScript (ES6+), React.js, Next.js, HTML5, CSS3
- **Databases:** PostgreSQL, MySQL, SQL, Prisma ORM
- **DevOps & Tooling:** Android Studio, Git, GitHub, VS Code, Vercel
- **Testing & QA:** Test Case Design, Manual & Functional Testing, Data Validation, User Acceptance Testing, Bug Reporting
- **AI-Assisted Development:** Claude Code, GitHub Copilot

KEY PROJECTS

bastaFDA — Mobile Verification of FDA-Approved Products

2025 – 2026

Capstone Project (Holy Cross of Davao College)

Flutter + Dart + TensorFlow Lite + OCR + Firebase

- Developed a **Flutter** mobile application that verifies medicine authenticity by cross-referencing **OCR** text extraction and **TensorFlow Lite** image recognition against official FDA registration data.
- Trained and integrated a **TensorFlow Lite image-classification model** to identify supported medicine products on-device from a curated image dataset.
- Engineered a **multi-scan OCR workflow** that aggregates results across multiple captures, improving text-extraction accuracy on low-quality medicine packaging.
- Implemented the full product flow (scanning, verification, history, reporting) with **Firebase** authentication and real-time data.
- Successfully defended the capstone before a faculty panel.

Kanbo — Job-Search Kanban Tracker

2026

Personal Project — full-stack — kanbo-two.vercel.app

Next.js + TypeScript + Prisma + PostgreSQL + Auth.js

- Built a full-stack application with **Next.js**, **TypeScript**, **Prisma**, and **PostgreSQL**, including a drag-and-drop Kanban board with **@dnd-kit**.
- Integrated **Auth.js v5** with GitHub/Google OAuth and database-backed sessions, enforcing per-user data access on every Server Action.
- Built a funnel/conversion analytics page from real stage-transition history, with a full dark-mode palette and CSV export served through a REST API endpoint (**/api/export**).

Personal Portfolio Website — kent-lozano.vercel.app

2025 – Present

Personal Project

Next.js + TypeScript + React + Vercel

- Built and deployed a responsive personal portfolio site with **Next.js** and **TypeScript**, hosted on Vercel with automated deployments from GitHub.

WORK EXPERIENCE

HOLY CROSS OF DAVAO COLLEGE

Davao City, Philippines

QA Intern, Developer Track — Academic Intervention System (Laravel)

2026

- Performed manual QA on an academic intervention system that monitors per-course and per-professor grade trends.
- Designed and executed test cases across the system's grade-checking, analytics, and reporting features, verifying data accuracy against source academic records.
- Localized reported defects in the Laravel codebase to root causes and supported user acceptance testing with academic stakeholders.

CHAT MODERATOR

Remote

Content Moderation

2024 – 2025

- Reviewed high volumes of user-generated content against platform guidelines, maintaining accuracy under strict turnaround times.
- Resolved escalated user concerns professionally in a fast-paced, metrics-driven environment.

EDUCATION

HOLY CROSS OF DAVAO COLLEGE

Davao City, Philippines

Bachelor of Science in Information Technology, 2020 – 2026

Capstone: bastaFDA — Mobile Verification of FDA-Approved Products | Coursework: Mobile Application Development, Database Management Systems, Software Engineering, Data Structures & Algorithms
